March 2015: enabling works/site assembly

Early 2015: surplus land sold in phased parcels

May 2015: reserved matters planning

Summer 2015: full business case to trust board and DH

January 2016: main works start

Spring 2018: new hospital opens

Autumn 2018: potential for school to open

Proposed masterplan

new hospital campus – 17 acres

new residential units - 18 acres

new school - 4 acres

Clinical functional content

- 48 in-patient elective surgical beds
- 8 theatres
- 16 theatre recovery spaces
- 4 high dependency unit (HDU) beds
- 15 day case beds
- 44 in-patient rehabilitation beds
- 10 space planned investigative treatment unit (PITU)
- 10 space haematology/oncology day unit
- Urgent care centre (UCC) 7 consulting rooms, 1 minor ops room and 1 plaster room

Clinical functional content cont.

GP out of hours service – 1 consulting room

world class expertise 🔷 local care

- older people's assessment unit (OPAU) 9 consulting rooms, 1 treatment room
- paediatric assessment unit (PAU) 3 PAU consulting rooms
- paediatric out-patients 7 consulting rooms, 1 treatment room
- adult out-patients 18 generic consulting rooms, plus breast clinic, physiological measurement, oral, orthodontic, ENT, audio and maxillo-facial surgery, ophthalmology and gynaecology suite

Clinical functional content cont.

- 6 virtual consult booths for telemedicine
- 6 phlebotomy bays
- anti-coagulation service space
- physiotherapy and musculo-skeletal (MSK) space on the wards and in OPAU
- 4 endoscopy rooms (plus an additional 2 shell spaces for future growth)
- diagnostics: 4 x-ray rooms, 6 ultrasound, 1 MRI plus 1 mobile MRI, 1 CT scanner plus fluoroscopy function within x ray
- pharmacy
- non clinical space: café, restaurant, retail unit, administration hot desking, teaching space, FM allowance and stores

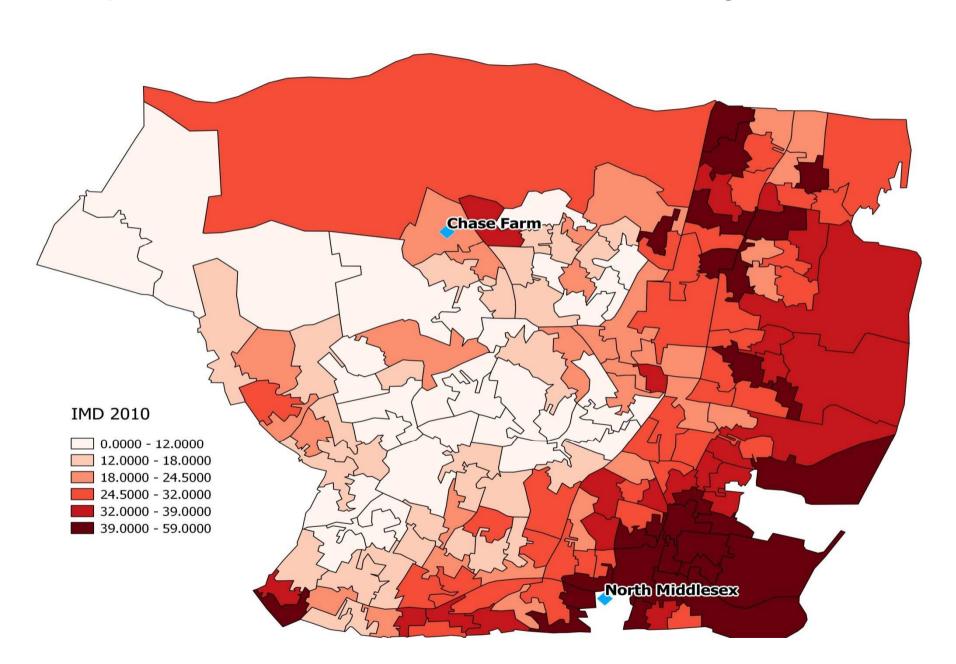

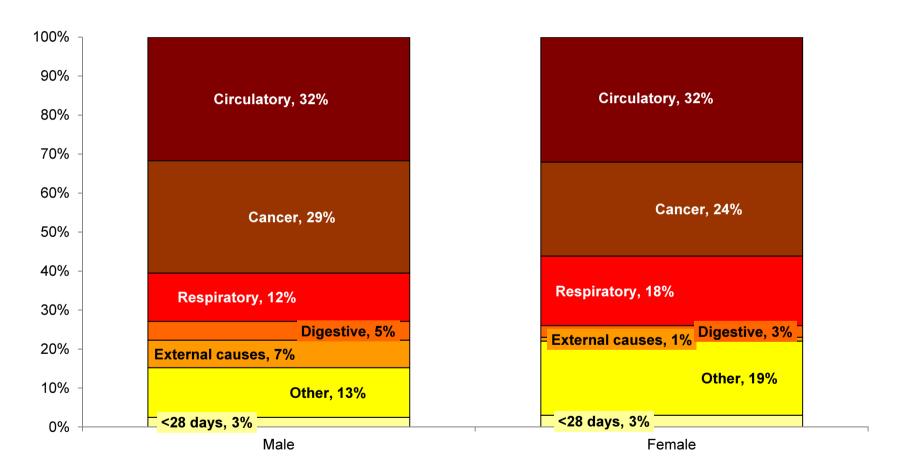

How we can turn the redevelopment of the chase farm site into a national example of integrated health and community wellbeing?

Deprivation and health are inextricably linked

The breakdown of the life expectancy gap between Enfield most deprived quintile and Enfield least deprived quintile, by cause of death, 2009-2011

Creating a health promoting environment to live, work and be treated in

Environment Promoting Health

- Cycle lane and parking
- Encouraging cycling / walking
- Green Gym
- No smoking
- Healthy food options
- Creation of a health hub
- Running track
- Playground
- Community classes
- Public health Principles as part of the contracting process

Staff Health and Wellbeing

New catering contact tackling the obesogenic environment -My Fitness Pal

- Flu vaccinations
- Every contact counts in JD
- Running Track and Green Gym
- Fit at the Free initiative
- Mindfulness
- Cycling and walking initiatives

patients

for

Services

reventative

World Class Prevention Services

- Stop Smoking,
- Alcohol Screening referral,
- Domestic Violence Screening,
- Adult and Child vaccinations
- Employment and health,
- Homelessness
- Co creation of services around the client

Royal Free NHS Fou

Using every contact counts approach to prevent ill health – example - maternal and child health

The foundations for virtually every aspect of human development.... What happens during these early years (starting in the womb) has lifelong effects on many aspects of health and well-being.

Marmot 2010

- Opportunity to think differently about services for families pre and post natal
- Identifying and supporting 'at risk' families and mothers
- Working across organisational boundaries
- Supporting maternal health and wellbeing
- Supporting healthy child development

The population of Enfield (2013)

- In Enfield, 54% of the under 16 are growing up in areas that are amongst the 30% most deprived communities in England, compared to 35% across England.
- In 2012, 29.6 % of children (-16) in poverty

Social and material deprivation is usually associated with poorer health outcomes amongst children,

- Immunisation: lower levels compared to London (2013/14)
 - 87.0% MMR (1 dose, 5 y.o.) coverage (7th lowest /32)
 - 71.9 % MMR (2 doses, 5 y.o.) coverage (4th lowest /32)
- Obesity
 - 26.5% children aged 4-5 are overweight (Eng: 22.5%)
 - 39.4% children aged 10-11 are overweight (Eng: 33.5%)
- Oral health
 - Tooth decay at age 5 is the highest in London: average 2.05 teeth decay per child (GL: 1.23)
- Infant mortality
 - 5.8 per 1,000 births in 2010-12 2nd highest in GL

Contacts with Enfield patients aged 16 and under- unmet potential

In Enfield

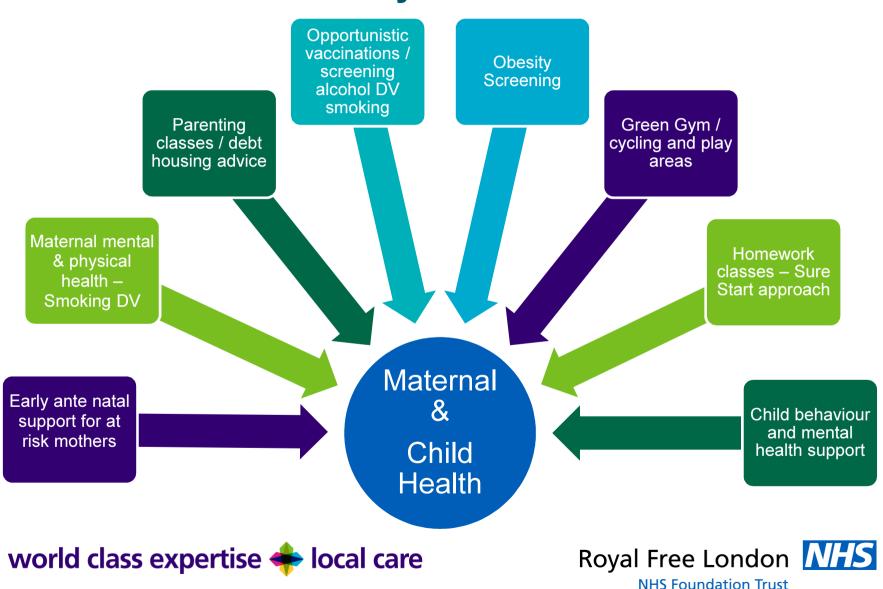

- **37,100 girls** aged 16 and under
- **39,500 boys** aged 16 and under

Site	Out-patient appts 2014	Distinct patients
Chase Farm Hospital	8,261	4,719
Barnet Hospital	5,557	3,128
Royal Free Hospital	1,585	778

We looked at our three main sites in 2014:

- Close to 6,200 of them had at least one contact in an outpatient setting at one of our three main sites.
- Adding A&E and in-patient encounters, this rises to 12,300.
- (PHOF 2013)

Building a health promoting clinical and community environment

We have experience of delivering public health initiatives in an hospital setting

Outcomes for Domestic Violence Initiative

Total referrals n= 122 (Nov 2013-Dec 2014) RF site

High risk (e.g. MARAC) – 21

Reported to the police – 29

Perpetrator charged – 1

Perpetrator prosecuted – 2

Injunctions Obtained - 4

Safety planning & declined service or signposting or information - 69
