4 CHAIR'S UPDATE

The Chair invited Ravi Lakhani (Head of Pension Investments) to provide an update on Item 6 Infrastructure Investments.

After discussions with Terry Osbourne (Director of Law & Governance) and Claire Johnson (Head of Governance & Scrutiny) an emergency one item PPIC meeting maybe needed by the end of the calendar year. Or, if Fund Managers stay open Ravi will bring the decision to the next PPIC meeting.

Following the infrastructure meeting last week, a paper summarising the questions and fees, the investment returns on products and suggestions on how to invest will be sent to Members, and if necessary, a meeting will be scheduled to inform the decision.

Colin Cartwright (Aon) and Ravi gave a recap on the M&G Inflation fund in preparation of the presentation to be received. The committee wanted a view on risks and opportunities of the fund over the next 3 years.

The Chair suggested looking at alternatives to M&G over the next 6-12 months which perform better.

5 REPORT ON NEW JOINERS & LEAVERS

The Chair felt that the following questions need to be addressed:

Is the economic situation driving behaviour?

Are people opting out as they financially cannot afford to stay in?

Ravi explained, that after a discussion with Pensions and Administration going forward an email will be sent to leavers to ascertain the reason/characteristics for opting out of the Pension scheme so data can be collected and allow for a more holistic approach. Currently, the tables do show a relatively small amount of people are leaving the scheme.

[Members had questions on what happens to the premiums paid once they leave the scheme? Ravi confirmed that they do not lose the money, it is refunded, transferred to another employer or frozen until retirement.]

The report was **Noted**.

6 RISK MANAGEMENT POLICY

The Chair designated the Risk Management Policy terms and control measures to the Pension Board as it relates to the risk element of the investments rather than the processes.

It would be useful for Members to have an aide memoir on the general risks that would affect investments.
