11 members of the public

### **36. WELCOME AND INTRODUCTIONS**

The Chair, Tim Fellows, welcomed everyone to the meeting and apologised for the delayed start.

### **37. APOLOGIES FOR ABSENCE**

Apologies for absence were received from Councillor Nick Dines, Susan Doran (MOPAC), Alok Agrawal (Secretary), Dina Sahmanovic (Victim Support Representative), Pat Jackson (CAPE Chair), Mark Rudling (EBRA).

### **38. CHAIRS FEEDBACK**

The Executive did not meet during the last period as it was not felt necessary. Tim explained he had been attended the Confidence Governance Board which looked at the level of public confidence residents have for Enfield Police. He also attended the Crime Scrutiny Standing Workstream.

At the last Hate Crime Forum, a presentation was provided from the Deputy Mayor for Policing and Crime, Sophie Linden on the Police and Crime Plan for London. The plan was discussed at the SNB Forum which the Chair also attended. The chair highlighted the following key points from the plan:

## SAFER NEIGHBOURHOOD BOARD - 2.11.2016

- The plan will have two overarching principles - Putting victims at the heart of the criminal justice system and support for vulnerable people. These will be confirmed following a consultation.
- The MOPAC 7 will be removed. It was felt that these were not constructive as when more domestic violence and hate crimes were reported it counted against the overall target of 20% reduction in crime.
- The 5 key priorities in the plan will be: Neighbourhood policing, keeping children and young people safe (gangs, knives, guns and child protection), tackling violence against woman and girls (domestic violence, domestic abuse and honour based violence), a criminal justice system that works for London and standing together against hate crime, extremism and terror in all its form.
- Monitoring will take place through measuring the effects crime and police investigations have on people rather than the reported number of crimes.

### 39. MINUTES OF PREVIOUS MEETING

The minutes of the previous meeting were **AGREED**.

### 40. EXAMINATION OF CRIME STATISTICS

Jenny Barnett introduced herself as the new Superintendent in Enfield.

Jenny presented the crime statistics on the following:

- Recorded Crime
- Anti-Social Behaviour
- Public Confidence and Victim Satisfaction
- Complaints against Borough Officers/Staff
- Stop and Search
- Taser Development

She highlighted the key issues as follows:

Recorded Crime – The total offences, for Enfield are showing a 1.7% decrease against the rolling 12 month figures despite there being a slight increase in recorded crimes in September. This includes theft from motor vehicle (-10%), non-residential burglary (-16%) and criminal damage (-6%).

Robbery was down in August, although increased in September. Superintendent Barnett pointed out that the “Autumn Nights plan” will deal with crimes that increase due to darker nights, including anti-social behaviour (ASB).

## SAFER NEIGHBOURHOOD BOARD - 2.11.2016

Anti-Social Behaviour – There has been a 15% increase in the borough, with more first time reporters call logged. The number of callers reporting a crime for the second time or more has fallen.

Public Confidence and Victim Satisfaction – From a survey of 818 members of the public in Enfield, 56% believe the police are doing a good job. Increasing public confidence will be a process which takes around 6-12 months. The Met Police Neighbourhood plan will see DWO's spending 100% of their time in their wards so there will be increased police presence.

Complaints against Borough Officers/Staff – There are currently 27 internal and external complaints against police staff. Of these 37% have been being investigated for 80 days or more and 16% are subject to appeal.

Stop and Search – 312 cases of stop and search took place during September. The metropolitan police arrest rate is 20%, Enfield have an arrest rate of 21%.

**ACTION:** Superintendent Barnett to report back to the Board any information on the Stop and Search monitoring group.

Taser Deployment – The following relates to the number of times a Taser was used by police in the borough:

- Drawn, 5 times
- Tasers aimed at a suspect, 3 times
- Taser aimed and the red dot placed on subject, 7 times
- Dry stun, 1
- Fired, 1
- Unauthorised discharge, 0

### 41. INTRODUCTION TO THE ENFIELD BOROUGH COMMANDER

The Chair welcomed Iain Raphael the new Enfield Borough Commander to the meeting.

Iain Raphael introduced himself to the Board and informed the Board he has a commitment to Enfield through his own personal connections to the borough.

The Borough Commander explained to the Board he expected Enfield police officers to understand their primary role is to prevent crime and secondly when crimes are committed a professional service should be provided. A priority will be made of domestic abuse cases, violence against vulnerable people, and child sexual exploitation cases whilst balancing volume crimes.

In response the following questions and comments were taken:

1. Concerns were raised whether Edmonton Custody Suite would be closed down. The Borough Commander informed the Board that there are on-going discussions on the future of the custody suite. It was felt

## **SAFER NEIGHBOURHOOD BOARD - 2.11.2016**

that whilst Enfield and Haringey are two separate boroughs, there should be two separate custody suites.

2. In the past, quarterly meetings have been held with the inspector for the neighbourhood cluster which has been very useful for advice and guidance for CAPE meetings. The Borough Commander said he would look into reinstating the cluster meetings and confirmed the dedicated ward officers should be attending the CAPE meetings.
3. Q) Figures provided at the SNB Forum suggested 15-20% of police time is spent on mental health issues, how is this issue dealt with considering the very large mental health unit in the borough?
  - A) The Safer, Stronger Communities Board provided a multi-agency approach to dealing with mental health in the borough. The Chair voiced concerns that the Mental Health Trust does not attend the Safer, Stronger Communities Board.

### **42. BODY WORN CAMERAS**

Inspector Alun Davies provided a presentation on Body Worn Video (BWV) that will be used by police across London. The following key points were highlighted during the presentation:

1. Since 17 October 2016, a trial of BWV has been run in London with 10 boroughs provided with BWV. 22,000 officers in London will be provided with BWV as part of the rollout which starts in December 2016. National and local coverage and a dedicated page on the Met Police website have provided members of the public with information on BWV.
2. The cameras will allow police to provide the best evidence of police encounters as the video can capture events as they happen. The cameras will also hopefully defuse high tension situations as people will be aware they are being recorded and this can be used as evidence.
3. BWV will provide greater transparency and accountability of policing which in turn will improve the investigation of complaints against officers and public opinion.
4. 10 boroughs across London trialled the use of BWV. During the trial two out of five response teams in each borough were provided with camera. During this period there was a 33% reduction in police complaints.
5. The camera is a robust part of the officer's kit which allows 12 hours of recording. Once turned on the camera will retain and record footage from 30 seconds prior to activation until it is turned off again.
6. The camera is to be worn overtly and it will be mandatory for officers to record during a number of encounters. Officers will be required to state when a recording is starting and when a recording will end wherever practical.
7. Footage will be deleted after 31 days unless required for evidence, disclosure or other policing purpose and will be unable to be edited or deleted.

## **SAFER NEIGHBOURHOOD BOARD - 2.11.2016**

The following questions were taken by members of the board:

Q) Will anyone be checking the cameras routinely?

A) If the camera does not contain evidence then it will not be checked. If the camera does contain evidence, the camera is docked and the footage is retained for 31 days.

Q) How will each camera be linked to the officer?

A) Cameras will be personal issue and not a shared resource.

Q) Will cameras be issued to all officers?

A) Funds have been allocated to all uniformed officers in the borough for the use of BWV.

Q) Do the cameras have a tracking device in them in case they are lost or stolen? Concerns were raised as a person may be more inclined to steal the cameras if they knew they contained footage of them.

A) Inspector Davies informed the panel he was not aware if they did but would look into the issue and report back to the Board.

Q) Will there be a review on the use of Cameras?

A) The use of BWV will be done in two phases. Enfield will be in the second phases which will start in the first quarter of 2017. The learning and best practise from phase 1 will be shared with officers across London.

### **43. NEIGHBOURHOOD CONFIGURATION**

Superintendent Jenny Barnett informed the Board that the Mayor of London had committed to 2 dedicated ward officers and 1 PCSO in each ward. This will be done in two phases. Phase 1 will take place in January 2017 and Phase 2 will be completed by December 2017. In Enfield, the dedicated ward officers are mostly already in place. The crimes previously managed by the neighbourhood teams will be dealt with by response teams.

All police bikes have been serviced and officers who have completed bike training are using the bikes as a form of transport, otherwise officers take public transport or walk to travel around their wards.

### **44. TARGET ESTABLISHMENT**

The current target strength for police officers is 555.

The current strength of police officers in the borough is 511.73. 14 officers for the borough are currently in police training school.

**SAFER NEIGHBOURHOOD BOARD - 2.11.2016**

**45. UPDATE ON CURRENT POLICE OPERATIONS**

Autumn nights – this operation runs from 21<sup>st</sup> October 2017 to 6 November 2017. Additional officers are in place to deal with the additional anti-social behaviour and dark nights related crime.

During this period there was an incident on an estate on the Hertford Road where a large number of youths were throwing fireworks. An additional police presence was required and for the Hertford Road closed whilst the incident was dealt with.

A member of the public suggested the police should petition the Government to stop the production of hand held fireworks. Over 20,000 people recently have signed a petition available online which would stop people being able to buy fireworks. The police reminded attendees it is an offence to let off a firework in the street and to let a firework off after 11.00pm, these crimes should be reported to the police.

**46. UPDATE ON SNB FUNDING APPLICATIONS**

There are currently no further updates on the SNB funding grants.

Susan Doran will now be the MOPAC representative for the Enfield Borough. Unfortunately, she was unable to attend this meeting due only coming into post on the 1<sup>st</sup> November 2016.

**47. ANY OTHER BUSINESS**

1. Concerns were raised over people using their phones whilst driving. Officers can use their body worn video to capture people using their phones whilst driving. If a car accident takes place and the police have reason to believe the driver was using their mobile they are able to access the phones data to check.
2. Over 12,000 met trace kits have been handed out across the borough. Enfield has the highest rate for distribution and the lowest refusal rate for kits in London. The use of met trace makes the area safer.

**48. DATES OF FUTURE MEETINGS**

The next meeting of the Safer Neighbourhood Board will take place on **2 February 2017**, in the **Conference Room**.

■ BODY WORN VIDEO – (BWV)

*Alun Davies  
Inspector  
Enfield Borough*

## ■ The benefits

- Largest global use of Body Worn Video within a police force; modernising the Metropolitan Police Service through technology
- Increasing the use of technology within the criminal justice system for more efficient and effective justice for victims
- Offenders are more likely to plead guilty, if they know they have been recorded; potentially speeding up the criminal justice process
- Making stop and search more accountable to communities
- Greater transparency of policing; improving the investigation of complaints
- Video captures events in a way that can't be represented on paper
- BWV will be incident specific and will not be used to indiscriminately record Londoners

## ■ The Trial

- Largest urban trial of Body Worn Video in the world
- Collaboration between MPS, MOPAC and the college of policing
- Selection criteria: complaint rate (primary) and Stop & Search rate
- 10 boroughs selected from across the MPS - *2 teams per borough randomly assigned (approx 500 officers)*

## Outcomes

- 33% reduction in complaint allegations.
- No noticeable change to stop & search encounters.
- Innovative use by officers.
- Londoners support BWV for the MPS.

## • The Camera

- Taser Axon Body 2 and flex cameras
- 12hr recording
- Hard wearing/ weather resistant
- wide angle view lens
- Docked at the end of each shift.
- Docked earlier if it contains evidence.
- Unable to edit or delete
- Auto deletion

Standby mode,  
(when **red** visible)

Wide angle lens

On/off button

Flashing **Red** ring  
indicates when recording

## Policy of use

- Worn overtly
- Not continuously recording
- Mandatory incidents/encounters: Stopping a motor vehicle: Stop & Search: Stop & Account: Domestic abuse: Searching premises/land/vehicles: Attending premises in order to effect an arrest: Critical incidents: Use of force.
- Recording uninterrupted until it is no longer proportionate/ necessary, or another recording system takes priority.
- Officers will, when practicable use plain language to clearly state when a recording starts and ends.

## ▪ Evidence Management

- Encrypted device
- UK based cloud storage
- Full audit trail from camera to court
- Footage deleted after 31days
- Footage retained longer if required for evidence, disclosure or other policing purpose
- The need for retention must be justifiable and tangible
- Subject access requests can be made under the Data Protection Act

*Note: Hate crimes are offences which are flagged as having a hate element when recorded by police. A crime can have more than one hate flag attached to it. For example, an assault could have both a homophobic and disability element. This crime would be included in the homophobic offence count as well as in the disability offence count. Therefore, adding up all the hate crime categories may result in multiple counting of a single offence.*

"Allegations are an interpretation of officer/staff behaviour at the incident. Officer/staff allegation measure counts the total allegations against each officer/staff involved (for example one complainant could make one allegation involving two different officers. This would be counted as two officer allegations)"

## **CAT Programme**

While delivering the CAT programme we have been in a very challenging position in terms of our office space, we thought we found a premises in Hackney and moved all our equipment into the office, only to be told that the original agreement to use the space has now changed, meaning we have to leave by the end of Jan.

We have once again found new premises (140 Boundary Road Walthamstow e17 8LA) that we will be moving into by end of Feb.

However I attach some CAT programme images thus far.

The Queens Park Rangers crest is part of the partnership that we have formed alongside Enfield Grammar School in the further delivery of the programme.

# CAT Introduction

# ABOUT CAT

What is CAT?

**CAT** has 3 distinct meanings:

- (a) Community Action Team
- (b) Crises Action Team
- (c) Corporate Action Team

**Our aim:** To create community leaders & social entrepreneur's

**Our objective:** Identify, train & develop a team of volunteers, peer mentors and community leaders, through a series of specialist training programmes aimed at capacity building of both physical and mental character by Nov 2017.

**Our Mission:** The CAT team will seek to recruit and mentor young people in the community to join CAT. CAT will support young people in danger of being attracted to a gang life style, they will work with and support police in sensitive areas. **CAT will not be**

# Why CAT?

We believe our youth are not only the leaders of tomorrow but also the leaders of today in every community and society at large. The kinds of skills, training, and knowledge they acquire today have an impact on their lives at present and in the future, and on their ability to promote development and social change. The youth are the greatest asset of every economy because they form the active labour force in the economy. However, significant numbers of young people are challenged with low self-esteem, little knowledge on basic life issues, lack of problem-solving abilities, and low morale – all of which make these youth apathetic towards community service.

Based on the adage that, “Experience is the best teacher” youth are regarded by adults as learners and incompetent in making informed decisions for change. In this regard, age often can be a barrier to participation in key issues that matter for young people’s development. However, evidence from our work in the past 8 years has demonstrated that young people can initiate, implement, and evaluate development interventions effectively if they are offered the needed capacity development opportunities.

# Our Vision

## **PHASE 1**

The team will be taken through: (a) Communication & Negotiation skills (b) Diet & Nutrition (c) Mental & Physical agility (d) The CAT 3rs of Respect, Responsibility and Reasoning.

## **PHASE 2**

Should they progress through the first phase they will enter the finishing school, which will cover (a) Elocution & Public Speaking (b) Dress and Deportment (c) Fine Dining.

(d) CV, proposal and report writing ( live project) & workplace etiquette.

Aspiration

## PHASE 3

### **Achievement, Recognition and Reward**

A recognition ceremony will be held by the school or civic centre, where graduates will receive certificates of achievement.

Two team members will be awarded the opportunity to apply their new skills at an International conference abroad where they will meet and greet corporate guest, with the possibility of opening the conference with a short introduction of how they arrived at this point in their lives.

**The CAT team will seek to recruit and mentor young people in the community to join CAT.**

**CAT will support young people in danger of being attracted to a gang life style, they will work with and support police in sensitive areas. CAT will not be police informants, they will seek to work with young people within the school environment and will be on call to go into schools when needed.**
