

ENVIRONMENTAL HEALTH AUTHORITY REPRESENTATION

TEMPORARY EVENT – OBJECTION NOTICE

This representation is made on behalf of Enfield's Environmental Health Authority. I confirm that I am authorised to speak at any hearing on behalf of the Environmental Health authority. I am employed by the London Borough of Enfield as a Senior Environmental Health Officer-Health and Safety and Licensing. The London Borough of Enfield's Licensing Team exercise all of the Council's responsible authority functions under the Licensing Act 2003 in consultation with and on behalf of : the licensing authority; the local enforcement agency for the Health and Safety at Work etc Act 1974 etc; the local authority with responsibility for environmental health; the local planning authority; the body that represents those who are responsible for, or interested in, matters relating to the protection of children from harm; and the local weights and measures authority (trading standards).

Name and address of premises: Royal Venue,
1 Jute Lane,
EN3 7PJ

Type of Application: Temporary Event Notice (TEN) –Standard

I certify that I have considered the TEN application made on 8th December 2015 and that **I wish to make representations** that the likely effect of these TENs are detrimental to the Licensing Objectives for the following reasons:

Background History:

There is currently a Premises Licence application in progress. There is due to be a hearing on 16th December 2015 as the application received objections from the Police and the Licensing team is seeking to amend the hours of operation applied for, as there has been a history of crime and disorder and public nuisance associated with the premises.

Mr Agron Xhaur is the Applicant and the proposed Designated Premises Supervisor and the applicant for these TENs.

The TENs applied for are:

- 24th December 2015 from 20:00 to 25th December until 03:30

And to allow the supply of alcohol and regulated entertainment.

On behalf of Environmental Health, I am satisfied that allowing the premises to be used in accordance with these notices would undermine the licensing objectives, Prevention of Crime and Disorder and the *Prevention of Public Nuisance*.

In light of the close proximity to local residents, the potential for noise disturbance from customers attending the premises up until 03:30am and also dispersal of customers at such a late hour will be extremely high.

Given the history of the premises, it is also highly likely that there will be crime and disorder issues. Therefore, Environmental Health must object to these TEN applications. For further information, please refer to the full representation by the Licensing Authority for the new application.

Had the applicant applied for the premises to be open to the public until 00:30am instead of 03:30, it is likely that there would not have been an objection from Environmental Health.

I reserve the right to provide further information to support this representation.

Duly Authorised: Victor Ktorakis, Senior Environmental Health Officer - Licensing Enforcement
