Enfield Commissioning Intentions 2017/18

Enfield CCG is currently spending more that it's funding allocation year on year and this needs to stop. The CCG is under special measures and as such it is expected to deliver recurrent savings and efficiencies to get back into financial balance. This means that there may be very difficult decisions the CCG has to make in order to balance its book.

The CCG therefore needs to:

- a) Recover its financial position
- b) Maximise the impact of its current investment has on improving patient outcomes and delivering value for money and maximise productivity
- c) Ensure that we maximise the impact of our current contracts and that contract management is robust
- d) Work with providers to reduce unnecessary activity from elective specialties as outlined in the right care programme to reduce costs
- e) Work with the other CCGs on NCL to aim to reduce commissioner costs from the system
- f) Review and strengthen our systems and processes for assessing, approving or rejecting individual treatment requests in line with other CCGs
- g) Review its currently commissioned service to determine if any changes to eligibility criteria need to be reviewed
- h) Review its currently commissioned services to determine if any of those need to be decommissioned, subject to consultation with our public.

Enfield CCH has been undertaking a number of sessions with patients and public, local clinicians and Health and Wellbeing Board as part of developing our commissioning intentions as outlined in the audit trail above.

The following table outlines the key commissioning intentions:

Programme Area	Commissioning Objective	Commissioning Intent	Timescale
Elective Care	Approval Process for Procedures	ECCG will be reviewing the clinical criteria and referral processes for a wide range of services and where appropriate introducing new referral templates. This will include the introduction of prior approval processes for some services (e.g. Individual Funding request)	Q1
	Approval processes for Consultant to Consultant Referrals	ECCG expects providers to abide by the NCL Internally Generated Demand (IGD) Policy (for consultant to consultant referrals) and will be challenging referrals and costs related to activities in breach of this policy	Q1

-			
	Elective Activity	ECCG will reduce the number of	Q1
		Outpatient First Appointments that	
		result in discharge by risk and gain	
		share arrangements with providers.	
		ECCG will be seeking to reduce	Q2
		activity per 1000 population to the	
		NCL average where appropriate for	
		key specialities including gastro,	
		urology, neuro, ENT, MSK (Trauma	
		and orthopaedics and pain),	
		general medicine and general	
		surgery. We expect the providers	
		to work with us on developing new	
		models of care which better triage	
		referrals, reduce unnecessary	
		activity and reduces length of stay.	
	Ambulatory Care	We will be working with providers	Q2
		to increase the number of	
		patients going through	
		ambulatory care across medical	
		and surgical specialties and for	
		all ages, with the aim of	
		reducing non-elective	
		admissions (where appropriate	
		and safe) and also reducing the	
		overall costs associated with	
		non-elective activity.	
	Improving Discharge	ECCG will be seeking to work with	
	Processes	providers to improve discharge	
	11000000	planning across both elective	
		and non-elective areas.	
	Right Care	ECCG gives notice to providers	Q2
	a) MSK: reduce high	that outlier areas within <i>right care</i>	
	levels of surgical	programmes need to be	
	intervention	addressed. The CCG is open to	
	b) Respiratory: reduce	different routes to reduce this	
	high levels of	variation including delivery through	
	emergency	new models of care. This will	
	admissions for COPD	reduce surgical rates at our acute	
	and Asthma	providers.	
	c) Reduce higher levels		
	of prescribing in		
	mental health		
	d) Reduce higher		
	elective length of stay		
	for some CVD		
	patients		
	e) Reduce higher levels		
	of emergency		
	admissions for		
	cerebrovascular		
	events		
	f) Reduce higher levels		
		•	

	of multiple emergency admissions and A&E attendances		
Der	rmatology	The CCG will commission a tele dermatology service from RFH to support a streamlined patient journey and maximise best use of consultant time. This will reduce the level of dermatology first outpatients through contractual removal of the unnecessary capacity.	Q1
Ge	ared Care between neral Practice and Acute ovider	ECC will commission shared care across general practice and acute providers to include methotrexate, expanding anticoagulation, and other areas identified through new pathways. This will reduce outpatient activity within our acute providers, and six months' notice is given.	Q2
Ele	ective Procedures	The CCG will give notice to providers that it is reviewing all processes for the assessment, approval and rejection of those procedures outlined below. The CCG needs to reduce its current high level of approval for the following areas: 1. Procedures of Limited Clinical Effectiveness 2. Criteria for hip & knee replacements 3. Hearing aids 4. IVF 5. Hernias 6. Haemorrhoids 7. Sterilisations 8. Homeopathy	Q1
Pat	thology	Enfield CCG is working with all other CCGs and providers to ensure standardisation of pathology costs across NCL. Notice will therefore be given to all current providers of the need to agree standard pricing and standards quality KPIs.	Q3

		T = (1.1.000 iii)	
	Other Elective Pathways	Enfield CCG will aim to introduce	Q1
		pathways which streamline patient	
		care and reduce unnecessary	
		activity within acute providers	
Cancer	Reducing Variances	ECCG will work with providers to	Q1
		understand variances and issues	
		associated with the coding and	
		activity within cancer services with	
		a view to standardisation.	
Stroke	Enhancing Stroke Pathway	Enfield CCG will work with	Q1
		providers to review the current	
		stroke pathway and rehabilitation	
		including the effectiveness of early	
		supported discharge. Providers	
		should expect a change to the	
		pathway from 1 April 2017.	
Neurological	Improved Community	ECCG wishes to explore the	
Conditions	Support	possibility to improve support to	
		neuro patients, including	
		Parkinson's, with the potential	
		development of community neuro	
		rehab service.	
Long Term	Integrating Service	ECCG will work with providers the	Q1
Conditions	Delivery	develop integrated services for	
		patients with long term conditions	
		(including respiratory, cardiology	
		and diabetes) where the impact	
		can be measured with the aim of	
		reducing secondary care activity	
		and improving patient outcomes.	
Acute	Reduce expenditure of	Enfield CCG notifies its acute	Q1
Medicines	high costs drugs	providers that there are a number	
Management		of changes it wishes to see: use of	
		avastin, repatriation of specialist	
		drugs in scope of the NHSE	
		manual for prescribed services,	
		and ensuring NICE compliance	
Urgent and	Integrated Urgent Care	Enfield as lead commissioner will	Q2
Emergency	Service	maximise the impact of the new	
Care		integrated 111 and GP Out of	
		Hours service to ensure that it	
		delivers to its full potential, that the	
		public are full aware of its new	
		capabilities and that the new	
		service contributes to system	
		resilience by reducing patient	
		access to A&E	
	Urgent and Emergency	Enfield CCG will continue to work	Q2
	Care Network	with its other NCL CCGs and	
		stakeholders to substantially	
		contribute to the development of	
		the Urgent and Emergency	
		Network, its workplan and part of	
		the STP and the designation	
	l .	Line of Frank the designation	1

			1
		process for Urgent Emergency	
		Care facilities.	
	Frequent A&E and LAS	CCG is currently working with	Q1
	Attenders	providers and general practices to	
		identify patients that are frequent	
		callers to LAS and/or attenders to	
		A&E. Patient discussions around	
		alternatives for care to take place	
		to offer other options. Aim is to	
		reduce A&E and LAS activity in	
		acute providers where other	
		alternatives are available	
	GP See, Treat and Direct	ECGG want to maximise the	Q2
		impact of the pilot GP See and	
		Direct to provide treatment and be	
		an integral part of the Urgent Care	
		Centre at NMUH. This aims to	
		reduce patient flow into the urgent	
		care centre and in to A&E at	
		NMUH. Service evaluation will	
		inform the way forward.	
Primary	Cardiovascular Disease	ECCG will continue to commission	Q1
Care		services for atrial fibrillation and	
		pre-diabetes during 2017/18 and	
		with a view to including the	
		identification and management of	
		people with high blood pressure.	
	Primary Care Hubs	ECGG has been reviewing its	Q3 months
	Times y care riage	urgent care services with a view to	QO MOMENTO
		determining how primary care hubs	
		could offer patients additional	
		capacity as part of developing 8-8,	
		7 days per week general practice.	
		Four primary care hubs are	
		planned to be in place.	
	Primary Care Prescribing	The CCG would like to ensure that	
	Trimary Gare Frescribing	there are robust medication	
		reviews in place for repeat	
		prescribing to reduce any	
		unnecessary wastage and simply	
		patient concordance	
	Primary Care Delegated	NCL CCGs will take on full	1 months
	Commissioning	delegated responsibility for the	1 1110111113
	Commissioning	contracting and commissioning of	
		general practice	
	Advice and Guidance	ECCG wishes to expand the	1 month
	Advice and Guidance	access to specialist advice and	1 111011111

Mental	Provision of Complex	ECCG currently spot purchases	3 months
Health	Rehabilitation for patients	long term inpatient mental health	
	with severe mental health	rehabilitation from a range of	

	·		
	issues	providers nationally. The CCG will	
		commission a local service from	
		BEHMHT to provide more local	
		service for patients and reduce	
		costs.	
	Provision of long term	ECCG will commission a range of	3 months
	care for people with severe	care options for patients currently	
	dementia	in long term hospital beds within	
		BEHMHT to include home	
		packages and care homes. CCG is	
		still assessing the number of ward	
		patients who are eligible for	
		Continuing Health Care. On	
		completion of individual patient	
		assessment the re-commissioning	
		of a range of services will be	
		implemented.	
	Provision of Perinatal	NCL CCGs have submitted a bid	3 months
	Mental Health service	against national funding to develop	3
	Montal Houself Scr vice	a perinatal mental health service	
		which will be fully commissioned	
		for 2017/18. The mental health	
		provider will support maternity	
	Review Provision of	providers. Enfield CCG will need to review its	Q1
			QI
	CAMHS	agreed Future in Mind strategic	
		plan, and reassess the supporting	
		financial plan against reductions in	
	Dravisian of Famala	local authority CAMHs funding.	00
	Provision of Female	NCL CCGs will commission a local	Q2
	Psychiatric Intensive Care	Female PICU service from one of	
	Unit (PICU)	our local providers via NCL STP	
	D	process.	00
	Psychological Therapies	ECCG wishes to ensure the	Q2
		maximum productivity for our	
		investment in psychological	
		therapies.	
Integrated	Assessing impact of	All providers will be expected to	Q2
Care	integrated care system	participate in a significant review of	
		our integrated care system to	
		inform any future commissioning	
		and decommissioning approach	
Community	Productivity and Value for	The CCG has already begun a	Q1
Services	Money	rebasing of the community services	
		contract with BEHMHT. Notice is	
		therefore given of any material	
		changes to the community services	
		contract as a result of this work.	
	Systematic review of adult	ECCG and LBE commission a	Q2
	and paediatric services	range of adult and paediatric	
		services from BEHMHT. It is critical	
		that those services are productive	
		and deliver the right care at the	
		right time. These services also	

	Т	1 1, 1, 1, 1, 1, 1, 1, 1, 1, 1, 1, 1, 1,	l
		need to substantially contribute to	
		system resilience. Enfield CCG will	
		be undertaking systematic review	
		to determine their effectiveness	
		and this may impact on	
		commissioning of community	
		services	
	System Resilience	We will be seeking to increase the	Q2
	System Resilience		Q2
		productivity of existing	
		Community Services and	
		Mental Health Services and	
		identifying how they can	
		contribute more effectively to	
		managing activity Out of	
		Hospital and improving	
		outcomes for patients. Initially	
		this will focus on improving the	
		productivity within the existing	
		, ,
