Subject: Indian Fusion, 252A High street, EN3 4HB, extended opening hours OBJECTION

Dear Sirs,

I am a resident living [REDACTED] Indian Fusion. I have recently found out that they have made an application to Enfield council to extend their opening hours and to do deliveries from the back of their restaurant. I would like to make an objection to this application because it will cause more noise and disturbance to all the residents living near to this restaurant. The entrance to our homes is at the back of their premises, where they propose to do deliveries from. They propose to do deliveries up to 3am every day, this means that their drivers and staff members will be entering and leaving the front of our premises until 4am. There will be lots of noise from the cars and also the extractor system of the restaurant. The back of the restaurant is not a public car. Also this restaurant has been trading at these hours before, without a licence. I would like to make an objection to this application.
