Subject: Variation Licence Indian Fusion

FAO: Ellie Green

I have received correspondence with regards to my Variation Licence application from the police and a local resident, within the emails I would like to respond to a few key points.

1. The police have objected with regards to an incident that took place concerning a driver being intimidated by a group of youths. This sort of incident can happen during daylight hours and in many different circumstances. The majority of our orders are placed online and are paid for in advance. I believe that the police were concerned for the safety of our drivers carry cash (for which we are grateful)

Another point which I'd like to point out, during our trading time here, in previous years , we noticed seedy goings on towards the rear of the residents buildings, drugs, drinking etc. at the walkway is usually dark and there are three bookies close by, however since our trail period started, as we have been present, this hasn't occurred.

2. A "concerned" resident (Imran Ahmed) who is objecting is one of the proprietors of a similar fast food business, from what I am aware of he is not a resident ; therefore a conflict of interest is the concern. The named concerned business is 9 shops away at the other end of the parade; therefore it would be very difficult to even give the objection benefit of doubt.

I have spoken to residents who live within 2-3 shops fronts away above the shops and they seems puzzled when asking them about the late night noise, as they didn't even know that I was open late night. I have also submitted a confirmation letter with signatures from residents confirming that they have no objections in late night trading.

3. Further objections from another party via a legal associate have arisen concerning the mode of transport making the deliveries and the noise that this will cause. The average noise from a car starting up and driving away and retuning is very low, the local residents can confirm this, in addition the High street has double decker buses, emergency vehicles, and refuse trucks going up and down on a regular basis.

If you require any further information , please do not hesitate to contact me.

Kind Regards

Ajaha Ali
