Classification: OFFICIAL

Dear Mr Simons,

Thank you for your email. Officers visited the premises during the early hours of Saturday morning and witnessed the sale of late night refreshment themselves. As advise has already been given to the owner they shall now be sent a formal warning letter advising them that further observations shall be carried and any further illegal activity shall result in them being invited to attend a formal interview under caution with a view to prosecution.

The owner has informed me that they intend to submit a licence variation to add late night refreshment to their premises licence. Your client may want to look out for the blue poster in case they have any relevant objections to make.

Regards

Charlotte

Dear Ms Charlotte Palmer,

Further to your email my client has contacted me to say that he has allegedly seen the premises known as Indian Fusion serving hot food for takeaway from the front of the premises. I would be grateful if the licensing authority have any update on the investigation of these premises.

Yours truly

Joshua Simons
