

London Borough of Enfield
Council - 20 September 2018
Amendment to Motion 12.6

Motion: 12.6 in the name of Councillor Maguire

Councillor Laban has submitted the following amendment to the motion:

To remove the words crossed through below:

~~“The LGA has estimated that councils face a funding gap of £7.8 billion by 2025 – just to maintain current service levels. By 2020, the Government will have cut a staggering £16 billion from core funding since 2010. Here in Enfield, the Government has cut £161 million from our funding since 2010 with yet more to come.~~

~~These massive cuts threaten Enfield Council’s ability to deliver the services that the people of Enfield, whether residents or running businesses, expect and deserve.~~

~~This Council believes that this punitive action by this Government against local authorities shows a callous disregard for the young, sick, elderly and vulnerable who rely on council services to have a decent quality of life.~~

This Council supports the LGA campaign – Moving the Conversation On – to build the case for long-term, sustained investment in local government as the way forward to restore Enfield and other councils to a strong and stable financial footing.”

The motion would then read as follows:

“The LGA has estimated that councils face a funding gap of £7.8 billion by 2025. This Council supports the LGA campaign – Moving the Conversation On – to build the case for long-term, sustained investment in local government as the way forward to restore Enfield and other councils to a strong and stable financial footing.”
