IP7 – LB Haringey Representation

Broadwick Venues Limited FESTIVAL Licence Application

Haringey Licensing Authority make representation against this application on the following matters which impact on the licensing objectives of the prevention of crime & disorder, public safety and the prevention of public nuisance.

The application for the festival site is still seeking 39,999 capacity without demonstrating how this egress and contingency planning for this capacity will be met, the SAG does not have the powers to increase the capacity on a licence. There is insufficient information supplied at present to consider a 39,999 capacity and we would not advise the LSC to agree to unknown /undefined plans at this stage. The capacity should be capped at 25,000 as this figure has been demonstrated to be significant in allowing for clearance of the Tottenham Hale transport hub by midnight.

The application in general makes overarching statements but does not give definitive steps/conditions of what is proposed to be set in place to meet the four licensing objectives. Haringey are therefore proposing the following conditions:

- A comprehensive and satisfactory traffic management plan (TMP), including full details of ingress and egress management, parking restrictions and enforcement, taxi pick up and drop off positions must be agreed by the SAG 1 month prior to the large event.
- The Traffic Order must detail the required restrictions and timings for the closure of Watermead Way for the egress of the major events. This is because we believe that the only safe way to the public to use Public transport is the road closure (Public Safety)

This must be agreed by MPS, LB Haringey, London Borough of Enfield, TFL (as traffic authority and for Underground and Buses) and GTR . Without the agreement of all parties to the TMP one month before the event, the event cannot take place.

- Sufficient and appropriately briefed and trained staff must be deployed to manage queues at all transport hubs significantly affected by each event. The locations and timings of these deployments to be agreed with the SAG. (Prevention of Public Nuisance and Public Safety)
- Sufficient barriers to be agreed with the SAG must be provided in order to facilitate a safe queuing environment and deliver patrons to the stations at a rate that the stations can deal with.
- The full cost of the TMP, including the TMO, staffing and barrier costs to be met by the organiser/promoter.

- Implementation, management and enforcement of the TMP and TMO must be by adequately trained stewards.
- Any ingress and egress route is to avoid any path that will take the event crowd through the residential streets in Haringey this is to include the Hale Village area. (prevention of public nuisance)

Emergency plans

No information has been submitted that provides and overview of the emergency procedure management plan for the site.

Alcohol timings

The application is seeking the ability to sell alcohol from 8am- 6am (possibly to 7am at the start of BST), whilst we understand that the applicants wish to have as much leeway as possible in the operation of the site , we feel that alcohol sales for such excessive hours has the potential to lead to anti social behaviour and would urge the LSC to reduce the hours sought or to condition sales cease 1 hour prior to the end of any event not just those running to 6am as the application is requesting.

Condition to avoid Spurs clash

It is critical that events are not held at the same time at both the Spurs Stadium and Meridian Walk as this could result in strain on the limited transport infrastructure in the area. We therefore propose the following condition: No large/major event to be held at Meridian Waters on days when Tottenham Hotspur is in use for a major event such as a concert/festival/NFL or late start football match.

Noise Management

Information provided to residents and businesses 2 weeks prior to the event must include a synopsis of information about the event including dates and times based upon the Premises Licence conditions. Information on how it is intended residents will be protected from excessive noise and details of a dedicated and live complaints telephone line, relevant traffic management information that could affect business, road closure etc. The Haringey Licensing team will provide/agree a list of roads within a reasonable distance from the event space specifying the required distribution list.

A draft of the letter to residents and businesses must be provided to the SAG no later than 4 weeks prior to the event.

Regards
Haringey Licensing Authority.
