This is a slight increase from the end of year and Quarter three figure of 3474. Demand continues to place pressure on the service</p> <p><u>COVID pandemic - Emergency Accommodation provision</u></p> <p>The country went into lockdown on 22 March 2020, following this the closure of all rough sleeper shelters by 27th March 2020. In preparation to house rough sleepers and single people at imminent risk of rough sleeping we began the process of procuring/negotiating room/studio/1-bedroom accommodation from the following provision:</p> <ul style="list-style-type: none"> • Registered Providers • Empty council stock • Use of refurbished decants (regen areas) • Block book of Travelodge Edmonton (supported housing provision) • Nightly let accommodation • Supported housing providers <p>From contacting the above providers, a listing was created of suitable accommodation to support both COVID symptomatic and non-symptomatic cases to ensure safety for a lock down period of up to 12 weeks. The Allocations scheme was suspended in accordance with government guidance and stock was used where possible for emergency purposes.</p> <p>The government issued a moratorium for evictions in the private rented sector, therefore stopping any further bailiff warrants for the period of lock down to continue to 20th September along with new notice periods.</p> <p><u>Update on Service Design for homeless and Prevention Services</u></p> <p>As part of the transformational change programme in homelessness, new ways of delivering homelessness and prevention Services were started in January 2020 with new teams and more experienced caseworkers working on the</p>

front line at John Wilkes House to receive enquiries, offer advice and take on casework with minimum hand offs. This means new customers have one caseworker dealing with homelessness prevention and any follow up homeless application. The new Service Model is more efficient, enabling caseworkers to undertake 'outreach' homelessness prevention surgeries, co-located with the Council's front-line MASH and Children's Services' Early Help Services. Standing Together Domestic Abuse charity has been reviewing Enfield's approach to Domestic Abuse in housing cases through research, surveys, interviews and workshops with staff and partners to inform Enfield's new service model. Pending their recommendations, a new risk-based housing focused domestic abuse checklist has been designed to support and improve our response to those facing domestic abuse and in preparing for new housing statutory duties in this regard.

The COVID pandemic led to a rapid redesign of the service offer. All services are now provided through a central phone line with the number advertised to other agencies and through our website. Calls are monitored to ensure that all calls are answered within 5 rings. Once someone is registered with the service, they can contact their caseworker directly by phone or email. Alternative solutions have been found for submitting documents and signing agreements, meaning that we are able to provide the service remotely. The lessons for this are now being built into the future service model.

Also, in response to the COVID pandemic we have set up a landlord advice line (launched 04/05/20) to assist landlords with advice and guidance for tenant payment/benefit issues. We have promoted this to more than 3,500 private landlords operating in Enfield. This forms a key part of the new service offer

Cabinet agreed on the January 22nd, 2020 for the following to take place with the associated timeframes:

- New service design restructure – starting June 2020
- Join Capital Letters – April 2020
- Establish Enfield Let (subject to approval)
- Use of Single Homelessness Program (SHPS) – April 2020

We have the new structure partially in place, most Leadership roles are in place and we hope to have a fully staffed structure by end October 2020. The timescale is subject to union and staff consultation (Market Management Team).

Timescales for Improvement:

In terms of seeing an improvement in the TA figures, this will only be realised through the service design.

Positive Actions undertaken in Quarter 1

Other positive actions include:

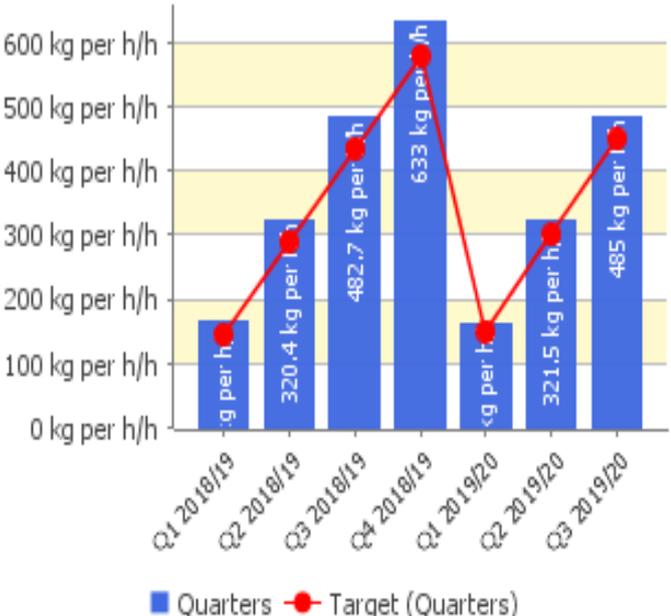

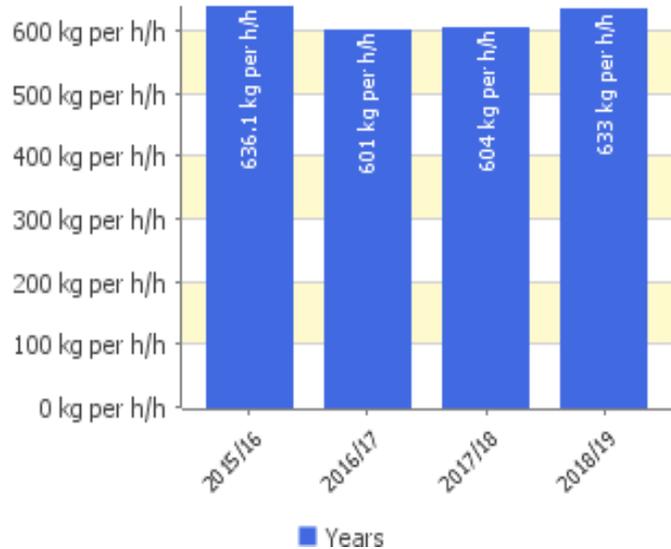

- 155 rough sleepers housed (verified) – 81 of the cases have no recourse to public funds
- Moved on 30 families from TA
- Prevented 97 families from going into TA

We worked collaboratively with Haringey Council to provide 20 bed spaces for rough sleepers at our block booked hotel in Edmonton – Travelodge. For the period we recharged Haringey both hotel and full staff costs (supported housing provision)

Capital Letters – although we joined this pan London letting agency in April, due to the COVID pandemic there has been a slow start. We have now procured 22 PRS tenancies (since mid-June), with currently a further 11 in the pipeline.

	<p>approved in July 2019 and sets out LBE’s commitment to a range of measures that will increase recycling performance. Key measures include working with businesses to reduce single use plastics and developing a strategy for improving recycling at flatted properties. The RRP runs until 2022.</p> <p>Timescale for Improvement</p> <p>It is anticipated that quarters 3 and 4 (2020/21) will improve compared to quarters 3 and 4 (2019/20), which will align with the launch of the resident engagement work and removal of temporary measures e.g. collecting refuse side waste, that were put in place to tackle the impacts of Covid-19.</p> <p>The annual NI192 figure will take longer to see an improvement in the figures due to the impact of Covid-19 on quarters 1 and 2 (2020/21). It is anticipated that the positive impact expected in 2020/21 will be delayed until 2021/22.</p> <p>We must be conscious that in light of Covid-19 many more people are and will remain working from home which is a significant change from where we started with our modelling of waste generated data and this will need to be kept under constant review to understand if it changes any of our original assumptions and figures.</p>

with the website. Whilst staff were unable to carry out face to face duties, a programme of cross training took place on webchat.

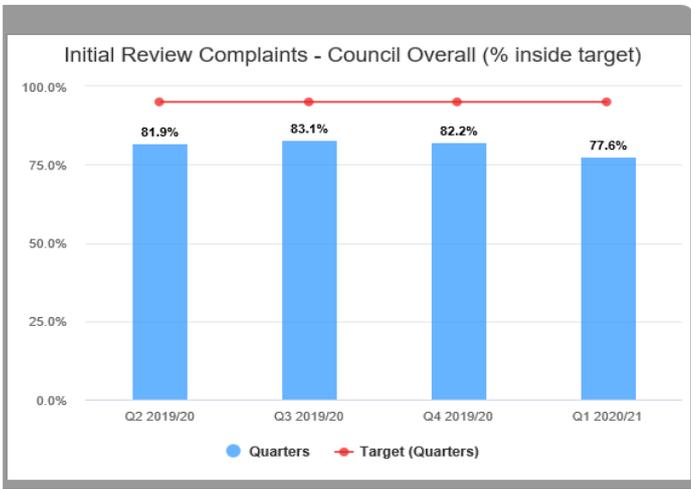

- Questionnaires - A new customer satisfaction survey was introduced in mid-June comprising 4 questions to be rated from one to five stars. These relate to the ease of use, professionalism, pace of the chat and whether the response fully answered the questions asked. A fifth question allows for further comments and areas of improvement as free text. This final question has allowed us to make improvements such as systematically offering the customer a copy of the transcript.
- Audit and feedback - The management team are carrying out regular auditing of webchat and feeding back to staff.

As a result of these initiatives we are already seeing improvements in satisfaction levels which will be reflected in the next quarter's results. **As an indication, July's data showed a satisfaction level of 85.6% which is above the corporate target of 85%.**

Action Plan Subject: Complaints, FOI's and Complaints
Lead Director: Director of Law and Governance

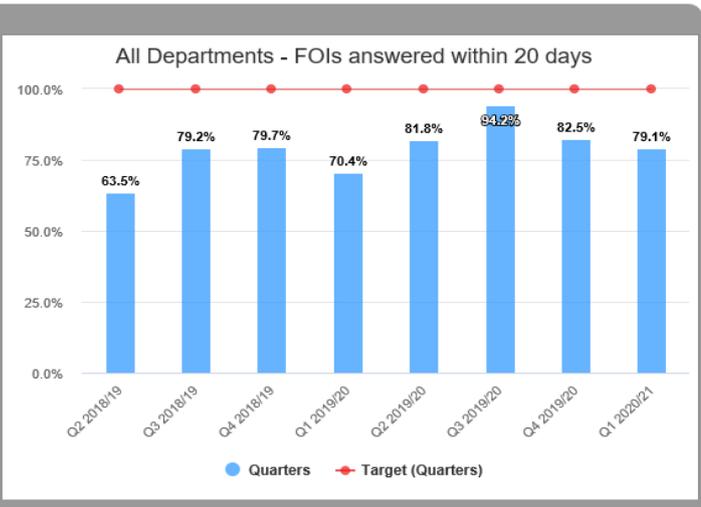

Trend Data

Commentary

The charts to the left show the current performance for Freedom of Information Requests (FOIS), MEQS and Complaints. The red line relates to the target.

Please note that the performance across these areas was directly affected by the Covid Pandemic. Staff across the council were redeployed into the Community Hub and the Councils associated response. This had a large and direct impact on these figures as staff were asked to prioritise this work and were unable to meet the corporate response times. This was discussed and raised as part of the GOLD meetings. There was also changes to processes during the last quarter due to COVID, in that we stopped sending weekly reports and formal reports as it was recognised that the pandemic work needed to be prioritised.

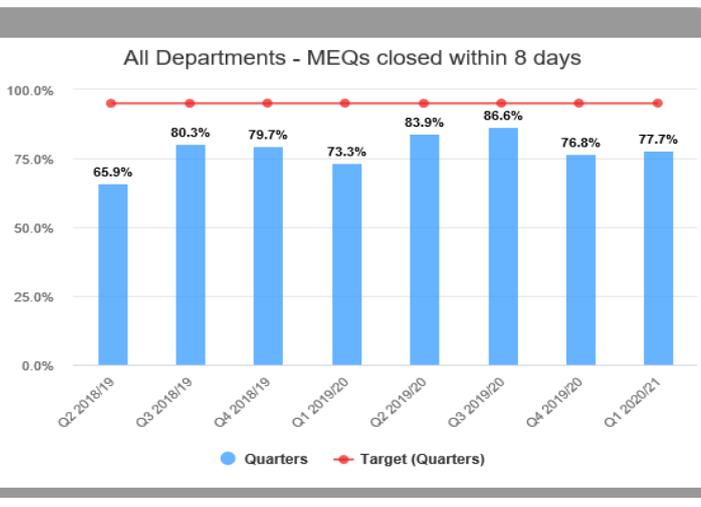

Summary

Complaints - Initial reviews a drop on Q4 of 4.6%. Performance is below the 95% target.

FOIS: For Quarter 1 for FOIs, performance was 79.1% below the 100% target.

Additional analysis is being undertaken to look at trends in terms of commonly asked questions and requests

MEQs: Quarter 1 for MEQ's performance was 77.7% answered in 8 working days against a target of 95%. This is a slight rise in performance from Quarter 4.

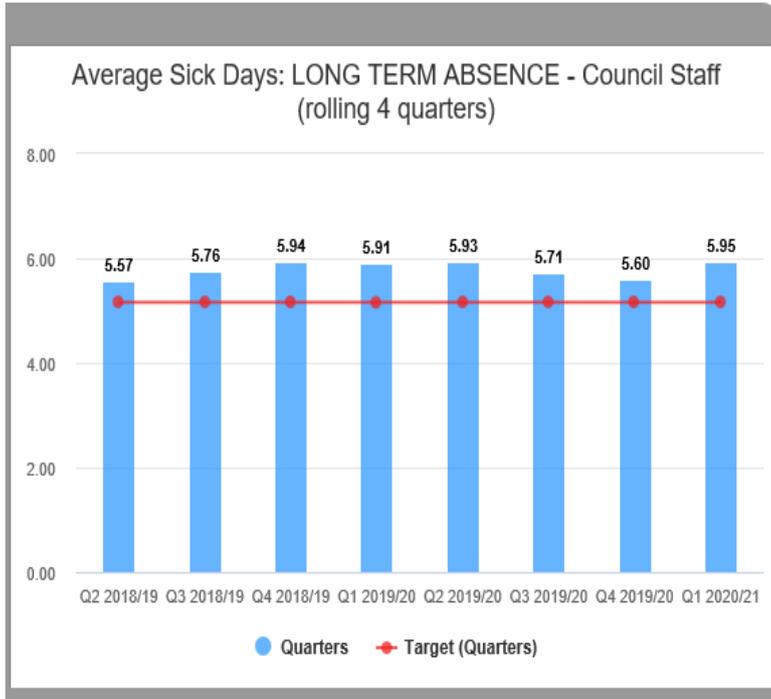

Action Plan Subject: Sickness Absence

Trend Data

Commentary

long-term sickness absence cases. The new managers in this service have been trained on the Council's sickness process and with HR support, these are now being proactively managed through Council processes.

Short-term absence has increased during Q1. Several Covid-19 short-term absence cases have been recorded which will contribute to this increase

The rolling 8 quarters for sickness absence up to Quarter 1 (April – June 2020 is in the chart on the left-hand side. Current Council wide performance is above target with 9.27 FTE days being lost to sickness every year. The target is 7.96 FTE days lost which was the London average in 2018/19.

The annual target relates to 0.66 days per FTE per month and 1.99 FTE per quarter. The departmental breakdown of sickness for Quarter two shows the following:

Monthly by Department (Targets 0.66 day per month; 1.99 days per quarter)

Indicator	Q1 2019/20	Q2 2019/20	Q3 2019/20	Q4 2019/20	Q1 2020/21		Annual Target 2020/21
	Value	Value	Value	Value	Value	Target	
Average Sick Days per FTE per Month - Chief Executives	1.51	1.29	1.67	1.58	1.59	1.99	7.96
Average Sick Days per FTE per Month - Resources	2.14	1.94	1.84	1.81	1.33	1.99	7.96
Average Sick Days per FTE per Month - People	1.85	1.93	1.53	2.03	1.55	1.99	7.96
Average Sick Days per FTE per Month - Place	2.82	2.91	3.18	3.39	3.82	1.99	7.96

Average Sick Days per FTE for the **Chief Executive's Directorate** is 1.59 which is below the 1.99 target

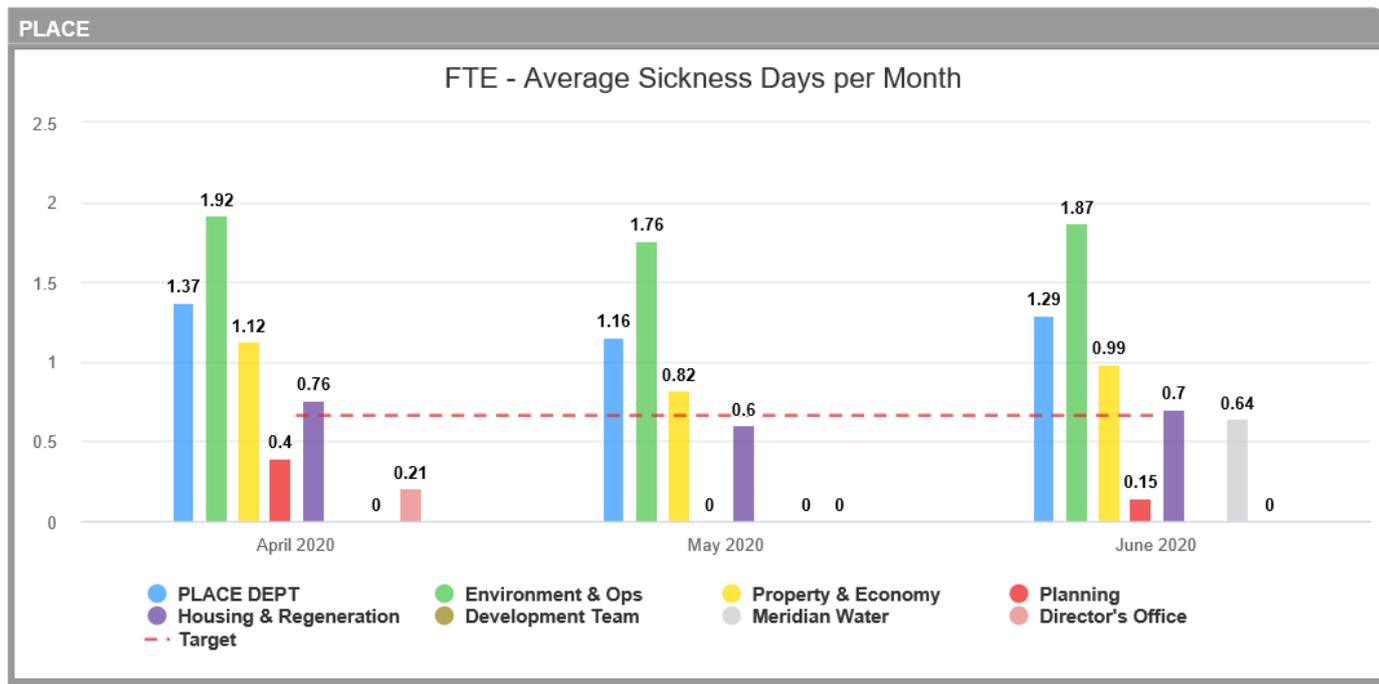

Average Sick Days per FTE for the **Resources Directorate** is 1.33 which is below the 1.99 target and a big improvement on Quarter 4

Average Sick Days per FTE for the **People Directorate** is 1.55 which is below target and is an improvement Quarter 3

Average Sick Days per FTE for the **Place Directorate** is 3.82 which is above the 1.99 target

it should be noted that the Place department has a large manual workforce where sickness absence levels does tend to be higher. This trend is not just within Enfield Council and is typical within this workforce category.

The following chart shows a breakdown in Sickness per month between April and June across the Place Department.

- Environment & Operational Services

Sickness levels have increased in Environment & Ops following the outbreak of Covid-19. Front-line service workers are unable to work with Covid-19 symptoms and do not have the ability to work remotely if they are symptomatic. During Q1 several staff have reported sick due to Covid-19 related symptoms, shielding and anxiety.

In this service there are a few long-term cases due to cancer and muscular skeletal issues. There have been some delays to treatment to resolve some of these cases due to Covid-19 and delays to planned surgery. All cases are being proactively managed with the local managers and some staff have now returned to work. Updates are reported to the Sickness Board. During April to June, 3 ill-health retirements have been processed and there has been one death in service.

- Property & Economy

Sickness levels in Property & Economy have increased following the insourcing of cleaning. A few long-term sickness cases transferred to the Council with no record that they had been managed through a process. These cases are now being proactively managed. In addition to this, there are four long-term sickness cases in other parts of this service that are being proactively managed through the Council's Absence & Attendance process. These cases have been exacerbated by Covid-19.

- Housing & Regeneration

Sickness levels in Council Housing have now stabilized.

In Q1 fifteen members of staff reported sick due to Covid-19 related reasons.

Additional Analysis and Further Actions:

The following shows a comparison of sickness levels at Q1 last year (April-June 2019) compared to this year April – June 2020) across the Council. The big increase is in Covid related sickness
Sickness relating to Stress and Depressions has seen a healthy reduction.

Sickness Category	FTE Days Lost		% FTE Days Lost	
	Q1 2020-21	Q1 2019-20	Q1 2020-21	Q1 2019-20

- Staff that have reached trigger points for sickness are reviewed by the services and cases of long term absence or frequent occurrences are being actively managed. Managers of these staff are being supported by HR.
- HR and Knowledge & Insight are working closely together, and management sickness absence reports are provided to all Directors on a monthly basis.
- HR Advisers will continue to have regular review meetings Directors and managers to ensure there is an agreed action plan for each case.
- Long term sickness absence cases over 100 days will be revisited and an action plan developed.
