

London Borough of Enfield

General Purposes Committee

14 October 2021

Subject: Corporate Risk Register Update

Cabinet Member: N/A

Executive Director: Ian Davis, Chief Executive

Key Decision: N/A

Purpose of Report

- 1 This report presents the latest Corporate Risk Register (CRR)
- 2 As noted in the 4 August 2021 paper to the General Purposes Committee, a full refresh of the CRR has been undertaken recently.
- 3 Following approval by the Executive Management Team, the refreshed Corporate Risk Register is presented for Member comment and input.

Corporate Risk Register Refresh

- 4 As well as consulting with internal stakeholders, we also reviewed a number of other Local Authority Corporate and Strategic Risk Registers.
- 5 This process ensured that all emerging risks have been covered. We are also pleased to report that no gaps were identified when comparing our CRR to other authorities' risk registers.

Change to Format

- 6 The format of the risk register has been amended and now the causes and impacts of each risk are listed separately.
- 7 This change enables clear identification of root causes and potential impacts on risks and ensures that the CRR is more sensitive to both external and internal events.

Significant Changes

- 8 The table below summarises the main changes made during the refresh.

Risks	Count
New	2
Closed	1
Merged	2
Titles changed	6
Risk rating changes	3

New Risks

9 Two new risks were added:

- CR18 Equality, Diversity and Inclusion
- CR19 Legislation, Regulations and Standards

10 CR18 covers the risk that the Council does not meet its targets set out in the Fairer Enfield Policy 2021-25 and misses an opportunity to improve equality, diversity and inclusion within the Borough.

11 CR19 covers the risk that the Council does not comply with or is slow to respond to new or changed legislation, regulations and standards

12 Both CR18 and CR19 are considered to be medium risk at present.

Closed Risks

13 One risk was closed:

- CR09A – Coronavirus

14 This was closed as it was considered to have become part of business as usual due to it being a cause for many risks and, like Brexit, the effects and after-effects will be felt for many years. So, whilst the individual risk has been closed, the residual aspects are covered under other Corporate risks (e.g.CR01, CR06 and CR08)

Merged Risks

15 Two risks were merged into one:

- Business Continuity
- Emergency Incident

16 Given the overlap between the two risks and the fact that the management of both areas come under one Head of Service, it was felt that this did not necessitate two separate Corporate risks.

17 The new merged risk is:

- CR08 Major Incident

Risk Title Changes

18 Seven risks have had risk titles and descriptions amended; these are shown in the table below along with the reasoning behind the change.

Previous Risk Title	Ref	New Risk Title	Reason
Budget Management	CR01	Financial resilience	Risk title has been amended to capture the risk now faced by the Council following Covid-19.
Failure to maximise income	CR02	Income maximisation	Risk title and description have been widened to include commercial activities.
Information Governance	CR04	Data Management	Risk title and description have been widened to include opportunities to utilise data more efficiently.
Loss of IT	CR07	Digital Technology	Risk title and description have been widened to cover the greater influence and dependence on all things digital.
Major Capital Projects	CR11	Regeneration and Growth	Risk title and description have been changed to broaden focus and to include non-building projects. Individual projects remain on Departmental risk registers.
Trading companies	CR13	Commercial Ventures	Risk title and description expanded to cover part owned companies as well as any other structures used.
Civil unrest	CR16	Community Cohesion	Risk title changed to include positive opportunities

Risk Rating Changes

19 The risk rating of three risks has been changed. Two have deteriorated and one has improved.

20 The two that have deteriorated are:

- CR11 Regeneration and Growth
- CR14 Staffing

21 The one that has improved is:

- CR03 Fraud and Corruption

22 CR11 has changed from a medium risk to a high risk due to the effects of Covid-19, Brexit and the wider scope of the risk.

23 CR14 has also changed from a medium risk to a high risk as staffing has been identified as high risk on many of the Service and Directorate risk registers.

24 CR03 has changed from a high risk to a medium risk. Whilst there is an increase in likelihood of fraudulent activities due to Covid-19, the impact of any fraud is considered to be lower in view of the improvement in controls over recent years. The resulting risk score (likelihood 5 and impact 3) gives a revised risk rating of a medium risk.

Other Changes

25 The full CRR, incorporating all changes, is presented at **Appendix A**.

Proposal

26 The General Purposes Committee is requested to note and provide comment on:

- The refreshed Corporate Risk Register presented at **Appendix A**.

Reason for Proposal

27 The Council's Risk Management Strategy requires the regular review of the Council's risk registers. In accordance with the Strategy, the General Purposes Committee is responsible for monitoring the effective development and operation of risk management in the Council. Therefore, the Corporate Risk Register is presented to the Committee for review and comment.

Relevance to the Council's Plan

Good Homes in Well-Connected Neighbourhoods

28 An effective Audit and Risk Management Service helps to provide assurance over any risks that might adversely affect the delivery of good homes in well-connected neighbourhoods.

Safe, Healthy and Confident Communities

29 An effective Audit and Risk Management Service is an essential management tool which will help the Council achieve its objectives to sustain safe, healthy and confident communities.

An Economy that Works for Everyone

30 An effective Audit and Risk Management Service will help the Council achieve its objectives in building a local economy that works for everyone.

Background

31 The Council's Risk Management Strategy requires the regular review of the risks the Council faces.

- 32 In accordance with the Risk Management Strategy, the General Purposes Committee is responsible for monitoring the effective development and operation of risk management in the Council.
- 33 Therefore, the refreshed Corporate Risk Register (**Appendix A**) is presented to the Committee for review and comment.
- 34 The nature of the risks on the Corporate Risk Register means responsibility and ownership overlap with various departments within the Council. For simplicity, each risk has been allocated a maximum of two lead departments. However, this does not absolve other departments from responsibility.
- 35 The Risk Management Team continues to provide oversight, challenge and advice to departments regarding effective risk mitigation and governance.

Main Considerations for the Council

- 36 Any large complex organisation needs to have a well-established and systematic risk management framework in place to identify and mitigate risks it may face.
- 37 The Audit and Risk Management Service supports management in the identification and mitigation of risks as part of its work.

Safeguarding Implications

- 38 There are no safeguarding implications arising directly from this update from the Audit and Risk Management Service.

Public Health Implications

- 39 Whilst the risk registers are produced to identify risks to Public Health (among other issues) and enable preventative action to be undertaken, there are no Public Health implications arising directly from this update from the Audit and Risk Management Service.

Equalities Impact of the Proposal

- 40 Following the Completion of the Corporate Equalities Impact Assessment initial screening, this report does not have an Equalities impact.

Environmental and Climate Change Considerations

- 41 One of corporate risks (CR17) is in relation to Climate Change, specifically that climate change and severe weather events may result in a disruption to delivery of services across the Council. It is recognised that a key mitigation will be delivery of the Council's adopted Climate Action Plan, which includes a range of actions as well as targets for monitoring progress.

Risks that may arise if the proposed decision and related work is not taken

- 42 Any large complex organisation needs to have a well-established and systematic risk management framework in place to identify and mitigate risks it may face.
- 43 The Audit and Risk Management Service supports management in the identification and mitigation of risks as part of its work and therefore, if this work is not carried out, reviewed and followed up, the Council faces the risk of legal, financial and reputational loss.

Risks that may arise if the proposed decision is taken and actions that will be taken to manage these risks

44 N/A

Financial Implications

- 45 There are no specific financial implications related to this report.

Legal Implications

- 46 There are no specific legal implications related to this report.

Workforce Implications

- 47 There are no specific workforce implications related to this report.

Property Implications

- 48 There are no property implications intrinsic to the proposals in this report.

Other Implications

49 N/A

Options Considered

- 50 It is generally accepted best practice that a Council's key risks are regularly reviewed by senior stakeholders, therefore no alternative options have been considered

Conclusions

- 51 The General Purposes Committee is requested to note and provide comment on the refreshed Corporate Risk Register.
