

Appendix A: Location of substation

- North-West corner of the MWP2 site (reference 19/02718/RE3), the Northern part – Part A – of Plot Z05-01 in the MWP2 permission:

- The site comprises concrete/blacktop hardstanding and was previously used as a storage area for shipping containers (which have recently been removed). The Pymmes Brook runs along (but outside) the west boundary of the site and there are a number of existing trees within the site along its north and west boundaries. The site is accessed from Argon Road to the north.
