DECISION							
AGREED:							
<i>Motion 10 in the name of Councillor Christine Hamilton</i>							
<u>Wealth Tax</u>							
<i>The Government's plan to fix the social care crisis' is yet more evidence that the current proposal was not the promise made in 2019. The proposal put forward by the Government is opposed across the country, even cabinet members are raising concerns about hitting low paid workers. The NHS/Care workers and lowest paid workers are the hardest hit of all through these changes.</i>							
<i>This motion is to raise concerns from across the country to call on this Government to fund a new deal for social care, asking those with the broadest shoulders to pay the most. We are asking for the Government's plan to be changed as it is also doing nothing for disabled working age people with a cap on care costs benefiting on just a fraction of those who use social care.</i>							
<i>Please support this motion.</i>							
The remainder of motions lapsed under the guillotine arrangements.

Deputy Leader (Cllr Ian Barnes)	Monday 4 October 2021	None	KD 5359	Craig Nicol, Project manager, Healthy Streets craig.nicol@enfield.gov.uk Tel: 0208 132 1601	Yes Friday 1 October 2021
DECISION							
<p>AGREED subject to not being called in: That the Deputy Leader of the Council agrees that:</p> <ul style="list-style-type: none"> The 12 designs shown in Appendix A that have been implemented to an experimental Traffic Order be made permanent. That all 12 schools have camera enforcement measures installed to assist the schools with enforcement, as funding allows. 							
ALTERNATIVE OPTIONS CONSIDERED							
<ol style="list-style-type: none"> Do Nothing - This is not recommended as this project is considered a key measure in protecting young people at pick up and drop off times. Extend the experiment – This is not recommended as this could create the impression that road safety is not being taken seriously. Remove the experiment in part or full – This is not recommended as the operational and air quality evaluations conducted by Transport for London, hav demonstrate there is wide public and political support for school streets. 							
REASONS FOR RECOMMENDATIONS							
<ol style="list-style-type: none"> These proposals will create a safer and cleaner entrance to the school. These measures will enable more active forms of travel as part of the wider Healthy Streets programme. These interventions are targeting traffic and road danger reduction near the school gates, to protect our vulnerable children. They support the reduction in air and noise pollution. In addition, they encourage the uptake of active modes of travel; such as scooting, walking and cycling enabling a few more minutes of quality time on the journey to school, leading to healthier communities. Active modes of travel also help to tackle childhood obesity and can improve attention and retention in the classroom.
