Watching TV during quiet scenes distracted by intrusive music and bass

Location recording noise:  
Living room

#### **Friday 10/2/23**

Time noise starts:8pm  
Time noise ends:11pm

Source of disturbance and type of noise:  
Skewd restaurant - intermittent faint techno music with heavy bass. Also sounds of customers shouting, cheering and singing.

Weather conditions:

dry and clear

Effects of disturbance:

Watching TV during quiet scenes distracted by intrusive music and bass. Also sounds of customers shouting, cheering and singing.

Location recording noise:

Living room

### **Saturday 11/2/23**

Time noise starts:8pm

Time noise ends:11pm

Source of disturbance and type of noise:

Skewd restaurant - intermittent faint techno music with heavy bass. Also sounds of customers shouting, cheering and singing.

Effects of disturbance:

Watching TV during quiet scenes distracted by intrusive music and bass.

Location recording noise:

Living room

### **Tuesday 14/2/23 - Valentines Day**

Time noise starts: 9pm

Time noise ends: 11pm

Source of disturbance and type of noise:

Skewd restaurant - constant loud techno music with heavy bass. Also sounds of customers shouting, cheering and singing.

### **OBSERVED NOISE LIMITER WAS TURNED OFF**

Weather conditions:

Dry and clear

Effects of disturbance:

Watching TV during quiet scenes distracted by intrusive music and bass. Also sounds of customers shouting, cheering and singing.

Location recording noise:  
Living room

### **Thursday 16/2/23**

Time noise starts:8pm  
Time noise ends:11.30pm

Source of disturbance and type of noise:  
Skewd restaurant - constant loud techno music with heavy bass. Also sounds of customers shouting, cheering and singing.

### **OBSERVED NOISE LIMITER WAS TURNED OFF**

Weather conditions:  
dry and clear

Effects of disturbance:  
Watching TV during quiet scenes distracted by intrusive music and bass. Also sounds of customers shouting, cheering and singing.

Location recording noise:  
Living room

### **Friday 17/2/23**

Awoken by the sound of loud chopping on wooden boards 3am - 3.30am

Time noise starts:8pm  
Time noise ends:11pm

Source of disturbance and type of noise:  
Skewd restaurant - constant loud techno music with heavy bass. Also sounds of customers shouting, cheering and singing.

Reference number 222456

Weather conditions:  
dry and clear

Effects of disturbance:  
Sleep disturbance

### **Saturday 18/2/23**

Time noise starts:8pm  
Time noise ends:11pm

Source of disturbance and type of noise:  
Skewd restaurant - intermittent faint techno music with heavy bass. Also sounds of customers shouting, cheering and singing.

Weather conditions:  
dry and clear

Effects of disturbance:  
Watching TV during quiet scenes distracted by intrusive music and bass. Also sounds of customers shouting, cheering and singing.

Location recording noise:  
Living room

### **Monday 20/2/23**

Time noise starts:4pm  
Time noise ends:4.30am

Source of disturbance and type of noise:  
Loud chopping on wooden boards

Weather conditions:  
dry and clear

Effects of disturbance:

Sleep disturbance

Location recording noise:  
Bedroom

### **Thursday 23/2/23**

Time noise starts:8pm  
Time noise ends:11pm

Source of disturbance and type of noise:  
Skewd restaurant - intermittent faint techno music with heavy bass. Also sounds of customers shouting, cheering and singing.

Weather conditions:  
dry and clear

Effects of disturbance:  
Watching TV during quiet scenes distracted by intrusive music and bass. Also sounds of customers shouting, cheering and singing.

Location recording noise:  
Living room

Weather conditions:  
dry and clear

### **Friday 24/2/23**

Time noise starts:7.45pm  
Time noise ends:11pm

Source of disturbance and type of noise:  
Skewd restaurant - intermittent faint techno music with heavy bass. Also sounds of customers shouting, cheering and singing.

Weather conditions:  
dry and clear

Effects of disturbance:

Watching TV during quiet scenes distracted by intrusive music and bass. Also sounds of customers shouting, cheering and singing.

Location recording noise:  
Living room

### **Saturday 25/2/23**

Time noise starts:6pm  
Time noise ends:6.30am

Source of disturbance and type of noise:  
Loud metal banging and sound of metal dragging

Time noise starts:8pm  
Time noise ends:11pm

Source of disturbance and type of noise:  
Skewd restaurant - intermittent faint techno music with heavy bass. Also sounds of customers shouting, cheering and singing.

Weather conditions:  
dry and clear

Effects of disturbance:  
Watching TV during quiet scenes distracted by intrusive music and bass. Also sounds of customers shouting, cheering and singing. The cheering was especially bad at 10.45pm

Location recording noise:  
Living room

### **Monday 27/2/23**

Awoken by the sound of loud chopping on wooden boards 2.30am - 3am

### **Tuesday 28/2/23**

Awoken by the sound of loud chopping on wooden boards 6am - 6.30am

### **Thursday 2/3/23**

Time noise starts:8pm  
Time noise ends:11pm

Source of disturbance and type of noise:

Skewd restaurant - intermittent faint techno music with heavy bass. Also sounds of customers shouting, cheering and singing.

Weather conditions:

dry and clear

Effects of disturbance:

Watching TV during quiet scenes distracted by intrusive music and bass. Also sounds of customers shouting, cheering and singing.

Location recording noise:

Living room

Weather conditions:

dry and clear

### **Friday 3/3/23**

Time noise starts:7.45pm

Time noise ends:11.30pm

Source of disturbance and type of noise:

Skewd restaurant - intermittent faint techno music with heavy bass. Also sounds of customers shouting, cheering and singing.

Weather conditions:

dry and clear

Effects of disturbance:

Watching TV during quiet scenes distracted by intrusive music and bass. Also sounds of customers shouting, cheering and singing.

Location recording noise:

Living room

### **Saturday 4/3/23**

Time noise starts:8pm

Time noise ends:11.30pm

Source of disturbance and type of noise:

Skewd restaurant - intermittent faint techno music with heavy bass. Also sounds of customers shouting, cheering and singing.

Weather conditions:

dry and clear

Effects of disturbance:

Watching TV during quiet scenes distracted by intrusive music and bass. Also sounds of customers shouting, cheering and singing. The cheering was especially bad at 10.45pm

Location recording noise:

Living room

### **Monday 6/3/23**

Time noise starts:6am

Time noise ends:6.30am

Source of disturbance and type of noise:

Loud metal banging and sound of metal dragging

### **Thursday 9/3/23**

Time noise starts:8pm

Time noise ends:11pm

Source of disturbance and type of noise:

Skewd restaurant - intermittent faint techno music with heavy bass. Also sounds of customers shouting, cheering and singing.

Weather conditions:

dry and clear

Effects of disturbance:

Watching TV during quiet scenes distracted by intrusive music and bass. Also sounds of customers shouting, cheering and singing.

Location recording noise:

Living room

Weather conditions:  
dry and clear

### **Friday 10/3/23**

Time noise starts:6am  
Time noise ends:6.30am

Source of disturbance and type of noise:  
Loud metal banging and sound of metal dragging

Time noise starts:7.45pm  
Time noise ends:11.30pm

Source of disturbance and type of noise:  
Skewd restaurant - intermittent faint techno music with heavy bass. Also sounds of customers shouting, cheering and singing.

Weather conditions:  
dry and clear

Effects of disturbance:  
Watching TV during quiet scenes distracted by intrusive music and bass. Also sounds of customers shouting, cheering and singing.

Location recording noise:  
Living room

### **Saturday 11/3/23**

Time noise starts:8pm  
Time noise ends:11.30pm

Source of disturbance and type of noise:  
Skewd restaurant - intermittent faint techno music with heavy bass. Also sounds of customers shouting, cheering and singing.

Weather conditions:  
dry and clear

Effects of disturbance:

Watching TV during quiet scenes distracted by intrusive music and bass. Also sounds of customers shouting, cheering and singing. The cheering was especially bad at 10.45pm

Location recording noise:  
Living room

### **Sunday 12/3/23**

Time noise starts:4.30am  
Time noise ends:5am

Source of disturbance and type of noise:  
Loud metal banging and sound of metal dragging

### **Tuesday 14/3/23**

Time noise starts:3.30am  
Time noise ends:4am

Source of disturbance and type of noise:  
Loud metal banging and sound of metal dragging

### **Thursday 16/3/23**

Time noise starts:8pm  
Time noise ends:11pm

Source of disturbance and type of noise:  
Skewd restaurant - intermittent faint techno music with heavy bass. Also sounds of customers shouting, cheering and singing.

Weather conditions:  
dry and clear

Effects of disturbance:  
Watching TV during quiet scenes distracted by intrusive music and bass. Also sounds of customers shouting, cheering and singing.

Location recording noise:  
Living room

Weather conditions:  
dry and clear

### **Friday 17/3/23**

Time noise starts:7.45pm  
Time noise ends:11.30pm

Source of disturbance and type of noise:  
Skewd restaurant - intermittent faint techno music with heavy bass. Also sounds of customers shouting, cheering and singing.

Weather conditions:  
dry and clear

Effects of disturbance:  
Watching TV during quiet scenes distracted by intrusive music and bass. Also sounds of customers shouting, cheering and singing.

Location recording noise:  
Living room

### **Saturday 18/3/23**

Time noise starts:8pm  
Time noise ends:11.30pm

Source of disturbance and type of noise:  
Skewd restaurant - intermittent faint techno music with heavy bass. Also sounds of customers shouting and singing.

Weather conditions:  
dry and clear

Effects of disturbance:  
Watching TV during quiet scenes distracted by intrusive music and bass. Also sounds of customers shouting, cheering and singing.

Location recording noise:  
Living room

### Summary for February & March 2023

1. Limiter was confirmed by SKEWD to have been installed and calibrated on 7th February 2023
2. It has been witnessed on at least 3 separate evenings after this date that the limiter has been turned off when the DJ is performing therefore resulting in the music to be loud enough to qualify as a noise nuisance

Mar 20, 2023, 20:33

3. Although the music volume has been lowered when the limiter is turned on, audible intermittent intrusive music can still be heard and felt. **The acoustic report states that the noise limits are a prediction only and a final survey should be conducted to determine the appropriate limits in practice, which could change.**

This final survey has not been carried out as of 20th March 2023

4. Also the noise limiter does not lower the sounds of customers shouting, screaming and cheering possibly due to the DJ stimulating and energizing the audience

5. Residents have still been awoken from their sleep at various times by the sounds of loud chopping, metal banging and dragging. We understand that kitchen preparation is necessary but can this work not be started after 8am instead of 2.30am?

6. The acoustic report also recommends the installation of an independent full ceiling within the restaurant to further improve sound insulation to **mitigate kitchen work, service noise and customer interactions.** This has not been installed as of 20th March 2023

Due to the above reasons we support and welcome Licensing's proposal that no regulated entertainment is permitted at any time, including a DJ thereby supporting the prevention of public nuisance licensing objective.

---

#### **IP4 Additional Information**

Update on the current situation before the upcoming Hearing on 29th March 2023.

The limiter was confirmed by SKEWD to have been installed and calibrated on 7th February 2023. It has been witnessed on several evenings after this date that the limiter has in fact been turned off when the DJ is performing, therefore resulting in the music to be loud enough to qualify as a noise nuisance.

Although the music volume has been lowered when the limiter is actually turned on, audible intermittent intrusive music can still be heard and felt in my flat. Also the noise limiter does not lower the sounds of customers due to the DJ stimulating the audience.

Residents have still been awoken from their sleep at various times by the sounds of loud chopping, metal banging and dragging. We understand that kitchen preparation is necessary but this is not acceptable at 3am!

The acoustic report also recommends the installation of an independent full ceiling within the restaurant to further improve sound insulation which has not been installed.

Due to the above reasons, we support and welcome Licensing's proposal that no regulated entertainment is permitted at any time, including a DJ thereby supporting the prevention of public nuisance licensing objective.
